Curriculum Vitae et Studiorum

Claudia Stefanutti received her Ph.D. in Experimental Medicine (Atherosclerosis) from University of Siena, Italy, in 1988. Her specialties are: Liver and Metabolic Diseases (1986) and Emergency Surgery (1994), both received from University 'Sapienza' of Rome. She studied extracorporeal techniques at the Department of Hematology from 1987-1989. During her training in surgery she introduced for the first time, the autologous blood recovery from wound or surgical site. She is Head of Extracorporeal Therapeutic Techniques, Lipid Clinic and Atherosclerosis Prevention Centre, Department of Molecular Medicine and Department of Immunohematology and Transfusion Medicine. She is Professor of Internal Medicine at the University 'Sapienza' of Rome. She is Full Member of the International Society of Cytokines(2010) and European Board Trustee of the International Society for Apheresis(2011). She leded the Italian Multicenter Study on LDL-apheresis Working Group (2006-2012), and recently (2012) she has founded the Multidisciplinary International Group for Hemapheresis Therapy and Metabolic Disturbances Contrast (MIGHTY MEDIC).
